## DETAILED ACTION

The Art Unit location of your application in the USPTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 2617.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15, drawn to a system or method for a wireless communication device to support various wireless standards, classified in class 455, subclass 426.1.
- II. Claims 15-18, drawn to a mobile device integrated with other devices, classified in class 455, subclass 3.06.
- III. Claims 19-20, drawn to a method of saving costs for a wireless device, classified in class 705, subclass 36.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination II has separate utility such as the camera, sensors, radiation detector, etc. Subcombination III has a separate utility such as the cost savings. See MPEP § 806.05(d).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bryan J. Fox whose telephone number is (571) 272-7908. The examiner can normally be reached on Monday through Friday 9-5.
